
BOARD LEADERSHIP INVITATION

Living Water Network

An invitation to help steward what God is building – and to shape it from the ground up.

Prepared by Omar J. Fandino, Founder

Living Water Network Inc. · 501(c)(3) Nonprofit · EIN 93-1859873

July 2026

A PERSONAL NOTE

Why I'm Asking You Specifically

Dear Friend,

Living Water Network started as a conviction I couldn't shake: leaders are being sent before they are formed — activated before they are healed — and it is costing the Church and the marketplace more than we often admit. Groundwork, our 9-month formation cohort, is my answer to that conviction. It launches its first cohort in Spring 2027.

I'm still early enough in this work that the people who join me now will shape what it becomes for the next decade. That's exactly why I'm asking you. This isn't a request to lend your name to something already built — it's an invitation to help build it, as one of the founding members of LWN's first Board of Directors.

I'm not asking because I need a rubber stamp. I'm asking because I need wisdom, honest pushback, and people who believe in the vision enough to help protect and sharpen it.

Alongside this letter, you'll find our one-page Theory of Change and this fuller packet — who we are, where we're headed financially, and exactly what board leadership would look like. I'd love to walk through all of it with you in person.

Omar J. Fandino

Founder, Living Water Network

Formation Before Activation

Rooted in truth. Sent to lead.

Living Water Network exists to equip 100,000 Kingdom leaders over five years through spiritual formation, discipleship, and leadership development — for leaders in ministry and in the marketplace alike.

The Founder's Story

Founder Omar Fandino came to faith during a season of incarceration, where he was not simply converted but genuinely formed — and could not keep it to himself. Released in 2021, he returned to Atlanta, joined Victory Church, and began building the structured, communal formation experience he needed and didn't have early enough. That became Groundwork.

Groundwork – Our Flagship Program

A 9-month formation journey across three phases — At the Table (foundation), Discover & Refine (calling and healing), and Activate (local serving, missions, and deployment) — offered across three tracks: Shepherd (ministry & missions), Builder (marketplace & entrepreneurship), and Canvas (creatives & influencers).

“*Before the water flows through you, the ground must be prepared.*”

Where We Are Today

LWN is a registered 501(c)(3) nonprofit (EIN 93-1859873, listed on GuideStar/Candid) in its startup stage — first cohort launching Spring 2027. That means the organization you'd be joining is still small enough that a founding board member's fingerprints will be on everything it becomes.

Our Theory of Change

The companion one-pager in this packet lays out our full logic model. Here's the short version of the chain we believe in — and the assumption doing the most work in it.

Curriculum, staff, and partner funding (**inputs**) power the Groundwork cohort, mentorship, and missions trips (**activities**), which produce results we can actually count — leaders formed, service hours logged (**outputs**) — which drive real change in the leader — healed identity, clarified calling (**outcomes**) — which compounds into leaders who reproduce formation in others at scale (**impact**).

The assumption doing the most work

We are not trying to personally form 100,000 people. We're trying to form a smaller number of leaders deeply enough that formation itself becomes something they pass on. If that multiplication doesn't happen, the model is too small and too slow — which is exactly the kind of thing a board should be watching closely with us.

Full model, assumptions, and our measurement plan: lwnetwork.org/theory-of-change

WHERE WE'RE HEADED

The Financial Roadmap

This is the multi-year plan a founding board would help steward, refine, and hold us accountable to.

PHASE	ANNUAL GOAL	FOCUS
Year 1 (2026-2027)	\$145,000	Launch inaugural cohort, establish curriculum and pastoral team
Year 2 (2027-2028)	\$190,000	Scale to two cohorts, expand missions program
Year 3-5 (2028-2031)	\$275,000+/yr	Full operational capacity — 3-5 cohorts annually, national reach

Current Allocation

Groundwork 45% · Pastoral & Therapeutic Support 15% · International Missions 12% · Staffing, Operations & Development 28%

Also on the Horizon

A Black Tie Gala (Winter 2026) is in early planning — projected net revenue of \$40,000-\$100,000+ through ticket sales, sponsorships, and a live paddle raise. A board member's network is often the difference between a good gala and a great one.

What We're Asking of You

This is a governance role first and foremost — we're asking for your wisdom, discernment, and strategic guidance, not a checkbook.

1

Term & Cadence

3-year renewable term.
Quarterly board meetings,
with occasional between-
meeting check-ins as we
grow.

2

Governance & Guidance

Strategic direction, financial
oversight, and honest counsel
as we build toward our first
cohort and beyond.

3

Ambassadorship

Helping open doors, make
introductions, and carry the
vision into rooms we couldn't
reach alone.

On Giving

There is no fixed financial requirement to join this board — this is a governance seat, not a purchased one. What we do hope for is space for you to invest in the vision as God leads you, whether that's financially, relationally, or through the doors only you can open. However that takes shape for you is between you and Him — we're simply grateful you're willing to sit at the table.

NEXT STEPS

Where We Go From Here

1 We talk it through

Sit with this packet and the theory of change one-pager. Bring every question — nothing here is final until we've talked it through together.

2 You meet the vision up close

An informal conversation (or two) to see if this is a genuine fit — for you and for LWN.

3 We formalize the board

Founding board members are confirmed and we hold our first official board meeting ahead of the Spring 2027 cohort launch.

Let's talk
